

BT Managed Portfolios

Part 2 - Investment Options Booklet
Quilla and Altitude Wealth Management

Issued 1 March 2026

The Product Disclosure Statement (PDS) is issued by
Westpac Financial Services Limited
ABN 20 000 241 127
Australian Financial Services Licence (AFSL) Number 233716

About the PDS

The PDS should help you to make a decision about whether or not to invest in BT Managed Portfolios ARSN 604 066 686 by:

- giving you a clear overview of BT Managed Portfolios and how it works
- explaining the benefits, features, risks and costs of investing in BT Managed Portfolios
- giving you an understanding of where you can find more information or get help.

The PDS is comprised of 2 parts:

- **Part 1 - General Information**
Please read this for an overview of BT Managed Portfolios and how it works.
- **Part 2 - Investment Options Booklet (this document)**
This document describes the managed portfolio options within BT Managed Portfolios that are managed by Quilla Consulting Pty Ltd ABN 99 600 052 659 AFSL Number 511401 (Quilla or the investment manager) (together referred to as the Altitude managed portfolio options) as well as the fees and charges that apply to these managed portfolio options.

The PDS contains important information that you should consider before making a decision about BT Managed Portfolios.

BT Managed Portfolios has a Target Market Determination (TMD), which includes a description of who the product is appropriate for. The TMD can be accessed via bt.com.au/tmd, or otherwise as set out in the 'Sourcing information' section below.

Updated information

The PDS may change from time to time. Any changes to information in the PDS that are not materially adverse may be updated by publishing the change on panoramainvestor.com.au. If the change to the information in the PDS is materially adverse, we will update the PDS and provide notice as required by law.

Sourcing information

The PDS and any updated information, as well as the TMD, are available free of charge by logging into panoramainvestor.com.au, by emailing support@panorama.com.au or by calling us on 1300 881 716. Paper copies are available upon request.

General advice warning

The information in the PDS is general information only and does not take into account your personal objectives, financial situation or needs. You should consider whether the information in the PDS is appropriate for you in light of your objectives, financial situation and needs.

Eligibility

The managed portfolio options in this document are only accessible by clients of Altitude Wealth Management Pty Ltd ABN 92 618 850 347 AFSL Number 516376 (Altitude Wealth Management). They are only available to you if you are, and continue to be a client of Altitude Wealth Management. If you cease to be a client of Altitude Wealth Management, you will be able to retain your existing holdings in your Altitude managed portfolios via your Panorama Product, however you will be unable

to make additional investments into them. Furthermore, the other Altitude managed portfolio options will not be available to you.

Consent to be named

Quilla and Altitude Wealth Management have each given and not withdrawn their consents to the inclusion in this document of all information referable to them (and the managed portfolio options Quilla is engaged to manage) in the form and context in which that information appears.

Availability

If, within your Panorama Investments or Panorama Super account, you only have access to the Compact menu of investment options (and not the Full menu), you may not be able to access some or all of the managed portfolio options described in this document. Refer to the disclosure document for your Panorama Product for more information about the Compact menu and Full menu. Please contact your adviser or the Panorama Support team to confirm your ability to access and invest in the Altitude managed portfolio options.

Managed portfolio options in BT Managed Portfolios other than those described in this document might also be available to you. Information about these other managed portfolio options is set out in separate product disclosure statements for BT Managed Portfolios that are also issued by us. You should obtain and consider those product disclosure statements in deciding whether to acquire or continue to hold any interest in BT Managed Portfolios. Contact the Panorama Support team or your adviser for more information on other managed portfolio options that may be available to you, and to obtain a copy of the relevant product disclosure statement for those managed portfolio options.

Who is the investment manager?

Quilla Consulting Pty Ltd (Quilla)

Quilla has been appointed by us as investment manager to advise on the construction and management of the Altitude managed portfolio options.

| | |
|--|--|
| ABN | 99 600 052 659 |
| AFSL Number | 511401 |
| About the investment manager | Quilla provides portfolio construction and management services. Quilla is a boutique investment group that is wholly owned by its personnel. Quilla aims to always act in clients' best interests and to deliver original investment insights which add value for clients. Quilla's fund management professionals have experience in investing in Australia, as well as overseas. Quilla provides both consulting and investment management services, with a particular focus on global economic and financial market research, dynamic asset allocation, fund selection and risk analysis. |
| Investment philosophy and process | Quilla believes that building long-term wealth is best achieved by trying to limit capital losses in the short-term. Quilla expects to deliver a suitable level of returns by limiting capital losses and managing risk as efficiently as possible, through diversified portfolios which can cope with a range of economic and financial market outcomes. Quilla aims to combine its own economic and market forecasting models with scenario analysis and stress testing. Quilla believes its integrated fund manager selection and monitoring program assists in identifying the managed funds and exchange traded funds (ETFs) to hold in the portfolios to achieve the targeted investment outcomes. |
| Sub-portfolio investment manager | <p>A subset of the Altitude managed portfolio options selected by Quilla may be managed in accordance with advice provided to us by an investment manager other than Quilla. The subset of assets that are managed in this way is referred to as the 'sub-portfolio'.</p> <p>Different fees and costs may apply to managed portfolio options that have one or more sub-portfolio(s).</p> |

What are the fees and other costs?

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs for the particular investment options are set out on page 11.

What are the fees and other costs?

Fees and costs summary

| BT Managed Portfolios | | |
|--|---|---|
| Type of fee or cost ¹ | Amount | How and when paid |
| Ongoing annual fees and costs² | | |
| Management fees and costs The fees and costs for managing your investment. | 0.1547% per annum for each managed portfolio option. | Investment management fee Calculated on the average daily value of your portfolio and deducted monthly in arrears from the balance of the cash allocation of your portfolio. |
| | 0.6009% per annum for each managed portfolio option. | Sub-portfolio management fee Calculated on the average daily value of your sub-portfolio and deducted monthly in arrears from the balance of the cash allocation of your sub-portfolio. |
| | Estimated to range from 0.52% to 0.59% per annum for each managed portfolio option. | Indirect costs Indirect costs apply to the underlying investments held in your portfolio, which are paid as and when incurred from the assets of the underlying investments and are reflected in their unit or market prices. |
| Performance fees Amounts deducted from your investment in relation to the performance of the product | Estimated to range from 0.02% to 0.30% per annum for each managed portfolio option. | Performance fees may be charged by the fund manager of an underlying investment. These fees are calculated by reference to the performance of the underlying investment, and are reflected in their unit or market prices. |
| Transaction costs The costs incurred by the scheme when buying or selling assets | Estimated to be 0.04% per annum for each managed portfolio option. | Transaction fees A transaction fee is charged at the point of sale by deduction from the trade value of the listed securities in your portfolio. |
| | Estimated to range from 0.04% to 0.05% per annum for each managed portfolio option. | Transaction costs (underlying investments) Transaction costs (net of buy/sell spread) are charged by fund managers of underlying investments as and when incurred in trading activity to execute the investment strategy of the underlying investments (excluding applications and redemptions) and are reflected in their unit or market prices. |
| Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)³ | | |
| Establishment fee The fee to open your investment | Nil | Not applicable |
| Contribution fee The fee on each amount contributed to your investment | Nil | Not applicable |
| Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme | Nil | Not applicable |
| Withdrawal fee The fee on each amount you take out of your investment | Nil | Not applicable |
| Exit fee The fee to close your investment | Nil | Not applicable |
| Switching fee The fee for changing investment options | Nil | Not applicable |

1 This does not include the Panorama Product fees and costs, see the disclosure document for your Panorama Product. Advice fees may also apply, see 'Additional explanation of fees and costs'.

2 The ongoing annual fees and costs applying to each managed portfolio option are set out on page 11.

3 Additional fees may apply, see 'Additional explanation of fees and costs'.

What are the fees and other costs?

Example of annual fees and costs

Example of annual fees and costs for a balanced investment option or other investment option

This table gives an example of how the ongoing annual fees and costs for the balanced investment option or other investment option can affect your investment over a 1 year period. You should use this table to compare this product with other products offered by managed investment schemes.

| Example - Altitude Balanced Portfolio | | Balance of \$150,000 with a contribution of \$5,000 during the year ¹ |
|--|---------|--|
| Contribution fees | Nil | For every additional \$5,000 you put in, you will be charged \$0. |
| PLUS Management fees and costs ² | 0.8088% | And , for every \$150,000 you have in the Altitude Balanced Portfolio you will be charged or have deducted from your investment \$1,213.20 each year. |
| PLUS Performance fees | 0.13% | And , you will be charged or have deducted from your investment \$195.00 in performance fees each year. |
| PLUS Transaction costs ² | 0.08% | And , you will be charged or have deducted from your investment \$120.00 in transaction costs. |
| EQUALS Cost of Altitude Balanced Portfolio | | If you had an investment of \$150,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1,528.20 What it costs you will depend on the investment option you choose and the fees you negotiate. |

1 This example assumes that the \$150,000 is invested for the entire year, the value of the investment is constant over the year and that the additional \$5,000 is invested at the end of the year. Therefore, fees and costs are calculated using the \$150,000 balance only.

2 The individual components that make up the management fees and costs and the transaction costs of the Altitude Balanced Portfolio are listed on page 11.

The 'Example of annual fees and costs' and the 'Cost of product information' (see below) do not include:

- the Panorama Product fees and costs, see the disclosure document for your Panorama Product; and
- the buy/sell spread charged by the fund managers of underlying managed funds within a managed portfolio option, see 'Additional explanation of fees and costs'.

For more information on fees and costs, see 'Additional explanation of fees and costs'.

Cost of product information

Cost of product for 1 year

The cost of product gives a summary calculation about how ongoing annual fees and costs can affect your investment over a 1 year period for all investment options. It is calculated in the manner shown in the Example of annual fees and costs.

The cost of product assumes a balance of \$150,000 at the beginning of the year with a contribution of \$5,000 during the year. (Additional fees such as an establishment fee or an exit fee may apply: refer to the Fees and costs summary for the relevant option.)

You should use this figure to help compare this product with other products offered by managed investment schemes.

| APIR code | Option name | Cost of product |
|-----------|--------------------------------|-------------------|
| WFS8063AU | Altitude Moderate Portfolio | \$1,288.20 |
| WFS1215AU | Altitude Balanced Portfolio | \$1,528.20 |
| WFS8064AU | Altitude Growth Portfolio | \$1,630.35 |
| WFS3859AU | Altitude High Growth Portfolio | \$1,855.35 |

What are the fees and other costs?

Additional explanation of fees and costs

Management fees and costs

Management fees and costs for each managed portfolio option include the investment management fee, the sub-portfolio management fee and indirect costs.

Investment management fee

We are entitled to be paid, and we currently charge, an investment management fee as responsible entity of BT Managed Portfolios. Part of the investment management fee is used to cover the cost of expenses, such as government levies and compliance costs.

We may pay the investment manager a fee for investment management services provided to us. This is paid from the investment management fee we receive and is not an additional cost to you.

The Altitude managed portfolio options may invest in managed funds that are managed by an associated entity of the investment manager, where the associated entity is expected to receive fees in its capacity as manager of these funds.

Sub-portfolio management fee

The sub-portfolio management fee (if applicable) is a fee charged in addition to the investment management fee and is charged by us as a percentage of the value of the assets of your sub-portfolio (if your portfolio has an allocation to a sub-portfolio). The sub-portfolio management fee applies to the assets in your sub-portfolio, and only for the period that the investment in the sub-portfolio remains in place. This means that, where your chosen managed portfolio option requires you to have a sub-portfolio as part of your portfolio, both the investment management fee and the sub-portfolio management fee is charged on the assets in your sub-portfolio.

For example:

- You have \$150,000 invested in the Altitude Balanced Portfolio (your portfolio).
- 14% (ie \$21,000) of the assets in your portfolio are held in your sub-portfolio for the entire year.
- The investment management fee for your portfolio is 0.1547% pa.
- The sub-portfolio management fee (charged on the assets allocated to your sub-portfolio) is 0.6009% pa.

Refer to the table on this page showing how the total management fee is calculated based on the above example.

| | Our management fee (pa) | Value of the assets to which the management fee applies | Actual management fee charged by us (pa) |
|---|-------------------------|---|--|
| | (A) | (B) | (C) = (A)*(B) |
| Investment management fee | 0.1547% | \$150,000 | \$232.05 |
| Sub-portfolio management fee ¹ | 0.6009% | \$21,000 | \$126.19 |
| Total Management Fee (\$) | | | \$358.24 |
| Total Management Fee (%) | | | 0.2388% |

¹ The sub-portfolio may be invested at a percentage higher or lower than 14% and may not be invested in for the entire year or at all.

The total management fee payable to us will vary over time as the allocation to your sub-portfolio within your portfolio changes due to market movements and/or the management of the managed portfolio option.

We may pay the investment manager of the sub-portfolio a fee for investment management services provided to us. This is paid from the sub-portfolio management fee we receive and is not an additional cost to you.

Indirect costs

The fund managers of underlying investments charge indirect costs in managing the underlying investment's assets within the managed portfolio option which indirectly reduce the return on the managed portfolio option (other than the performance fees or transaction costs). These costs are not charged by us but are generally deducted by the fund manager from the assets of their underlying investments and reflected in their unit or market prices.

In addition, we may charge indirect costs in the cash allocation of each managed portfolio option.

What are the fees and other costs?

Rebates

Our estimates of the indirect costs take into account any rebate passed on by the fund managers of underlying investments for investment costs of the underlying investments within your portfolio.

You are eligible to receive these rebates (if any) provided your Panorama Product remains open at the time the rebate payments are made. The rebate calculation takes into account the time period during which you were invested in your portfolio. It is paid in full to the cash allocation of your portfolio or your Panorama Product's transaction account if you have fully withdrawn from your portfolio.

Performance fees

We do not charge a performance fee. However, a performance fee may be charged by a fund manager of an underlying investment within a managed portfolio option. The fee is charged when the underlying investment's returns outperform either a specific benchmark or a performance hurdle return, and it is calculated by reference to the performance of the underlying investment. The performance fee is incorporated in the underlying investment's unit or market price, deducted from the assets of the underlying investment and is thus not deducted by us.

The performance fees disclosed by fund managers of the underlying investments are generally calculated as estimates of the average amounts of annual performance fees accrued over the previous five financial years (subject to certain exceptions, for example where the product was not offered for the previous five financial years).

Transaction costs

Transaction costs are generally incurred when underlying investments within a managed portfolio option are bought and sold and when there is trading activity within the underlying investments themselves. They include:

- our transaction fees arising from trading activities within your portfolio relating to listed securities (referred to as 'Transaction fees'); and
- transaction costs relating to the underlying investments within your portfolio (referred to as 'Transaction costs (underlying investments)').

Transaction fees

We charge a transaction fee for each transaction when buying and selling listed securities in your portfolio. This transaction fee is payable out of the portfolio assets to which the transaction relates and is deducted by us at the time the transaction is recorded. This fee is an additional cost to you. Generally, the transaction fee will be between 0.11% and 0.18% of the transaction amount but may be as high as 0.20% of the transaction amount. As an example, a \$50,000 transaction in your portfolio attracting a transaction fee of 0.18% would be \$90.

Transaction costs (underlying investments)

Transaction costs (underlying investments) are made up of the buy-sell spreads of underlying managed funds and other transactional and operational costs (referred to as 'transaction costs (underlying investments) net of buy/sell spread'), as set out below.

Buy/sell spread (underlying managed funds)

We do not directly charge a buy/sell spread on managed portfolio options. However, buy-sell spreads are incurred when interests in underlying managed funds within the managed portfolio options are purchased and redeemed. The fund manager of the underlying managed fund may charge an amount representing a contribution to the cost of purchasing or selling the underlying managed fund's assets.

These costs are an additional cost incurred at the time of the transaction and are usually reflected in the difference between the entry price and exit price of a unit in the underlying managed fund. This is commonly referred to as the 'buy/sell spread'. The buy/sell spread is applied before the unit price is provided to us.

At the time of the transaction, the buy/sell spread will be either:

- an amount added as part of the calculation of the entry price, payable when an underlying managed fund (within a managed portfolio option) is acquired (buy spread), or
- an amount subtracted as part of the calculation of the exit price, payable when an underlying managed fund (within a managed portfolio option) is sold (sell spread).

The buy/sell spread charged by the fund manager of an underlying managed fund is an additional cost to you by reducing your investment return. Generally, the buy/sell spread is retained by the relevant managed fund and applied to defray transaction costs; it is not a fee paid to the fund manager.

The estimated buy/sell spread incurred by each Altitude managed portfolio option is listed in the table under the 'Gross transaction costs' section.

Transaction costs (underlying investments) net of buy/sell spread

A fund manager of an underlying investment may incur its own transactional and operational costs in implementing an underlying investment's strategy, such as brokerage, stamp duty, clearing costs and settlement costs. These costs reduce the value of the underlying investments and are charged at the time of trading activity and incorporated into the underlying investment's unit or market price.

What are the fees and other costs?

Gross transaction costs

The estimated gross transaction costs of the Altitude managed portfolio options are listed below.

The gross transaction costs take into account transaction fees and transaction costs (underlying investments) as described above.

| Portfolio name | Transaction fees (pa) | Gross transaction costs (underlying investments) (pa) | | Total gross transaction costs (pa) |
|--------------------------------|-----------------------|--|---|------------------------------------|
| | | Transaction costs (underlying investments) net of buy/sell spread ¹ | Buy/sell spread (underlying managed funds) ¹ | |
| | (A) | (B) | (C) | (D) = (A) + (B) + (C) |
| Altitude Moderate Portfolio | 0.04% | 0.04% | 0.10% | 0.18% |
| Altitude Balanced Portfolio | 0.04% | 0.04% | 0.12% | 0.20% |
| Altitude Growth Portfolio | 0.04% | 0.05% | 0.13% | 0.22% |
| Altitude High Growth Portfolio | 0.04% | 0.05% | 0.14% | 0.23% |

¹ The buy/sell spread may be charged by fund managers of underlying managed funds.

The estimated transaction costs shown in the 'Fees and costs summary' table above and the 'Altitude managed portfolio options list' table below are net of any buy-sell spreads incurred from transactions in the underlying managed funds held within the Altitude managed portfolio options.

Changes in fees

You agree that we have the right to change the amount of fees, but we will provide at least 30 days' notice prior to any increase (or otherwise as required by law).

Under the scheme's Constitution the responsible entity may receive a maximum investment management fee of 4% per annum (excluding GST) of the total value invested and a maximum performance fee of 5% per annum (excluding GST) of the total value invested.

Estimated fees and costs calculation methodology (managed portfolio options)

We calculate estimated fees and costs based on information available to us during the preparation of this document (including the disclosure documents of underlying investments) and make reasonable estimates where fees and costs information is not available. Actual fees and costs are not fixed but can vary over time and depend on the underlying investments and their weightings within the managed portfolio option, how the underlying investments are traded and the actual fees and costs incurred.

Tax

The benefit of any reduced input tax credit (RITC) has been passed onto you. Except where otherwise stated, all fees and costs in this document include GST and are net of RITC.

For information about tax generally refer to 'Taxation' in Part 1 of the PDS.

Other fees and costs

All other fees and costs (such as government fees, bank fees, fees for failed transactions and penalty interest) incurred in a transaction, deposit or withdrawal will be passed on to you by deduction from the cash allocation of your portfolio.

Adviser remuneration

Advice fees may be deducted from your Panorama Product transaction account where you have signed a fee deduction consent by arrangement with your financial adviser according to the adviser's fee disclosure.

Altitude managed portfolio options list

The fees and costs applying to each managed portfolio option are set out below.

| Portfolio name | Management fees and costs (pa) | | | | Performance fees (pa) | Transaction costs (pa) | | | Total ongoing annual fees and costs (pa) ^{4, 5} | Page |
|---------------------------------|--------------------------------|------------------------------|----------------|--------------------|-----------------------|------------------------|--|--------------------|--|------|
| | Investment management fee | Sub-portfolio management fee | Indirect costs | Total ¹ | | Transaction fees | Transaction costs (underlying investments) net of buy/sell spread ² | Total ³ | | |
| ASSET CLASS: Diversified | | | | | | | | | | |
| Altitude Moderate Portfolio | 0.1547% | 0.6009% | 0.52% | 0.7588% | 0.02% | 0.04% | 0.04% | 0.08% | 0.8588% | 12 |
| Altitude Balanced Portfolio | 0.1547% | 0.6009% | 0.57% | 0.8088% | 0.13% | 0.04% | 0.04% | 0.08% | 1.0188% | 13 |
| Altitude Growth Portfolio | 0.1547% | 0.6009% | 0.58% | 0.8369% | 0.16% | 0.04% | 0.05% | 0.09% | 1.0869% | 14 |
| Altitude High Growth Portfolio | 0.1547% | 0.6009% | 0.59% | 0.8469% | 0.30% | 0.04% | 0.05% | 0.09% | 1.2369% | 15 |

1 The total management fees and costs are made up of the investment management fee, the sub-portfolio management fee (taking into account the allocation to the sub-portfolio within the managed portfolio option) and the indirect costs. It is assumed that the following allocations are assigned to the sub-portfolio for the entire year: 14% in the Altitude Moderate Portfolio, 14% in the Altitude Balanced Portfolio, 17% in the Altitude Growth Portfolio and 17% in the Altitude High Growth Portfolio.

2 The buy/sell spread may be charged by the fund managers of underlying managed funds.

3 The total transaction costs are made up of the transaction fees and the transaction costs (underlying investments) net of buy/sell spread.

4 The total ongoing annual fees and costs are made up of the total management fees and costs, performance fees and the total transaction costs. They do not include the Panorama Product fees and costs (see the disclosure document for your Panorama Product); and the buy/sell spread charged by the fund managers of underlying managed funds within a managed portfolio option (see 'Additional explanation of fees and costs').

5 For more information on fees and costs, see the 'What are the fees and other costs?' section in this document.

Altitude managed portfolio options summaries

Altitude Moderate Portfolio
